

CEV - MOTOROLA R2 TWO-WAY RADIO AIDE MEMOIRE

To turn the radio on, rotate the On/Off/Volume knob clockwise until you hear a click

To change the volume up, continue to turn the power knob clockwise.

To turn volume down turn knob counterclockwise.

Low	High
-----	------

ON	OFF
----	-----

To change radio channel, twist the middle knob to select the required number.

Plugging in Earpieces

Move the rubber from the side covering the plug connection. Do not rip it off. It should stay connected to the radio.

Insert earpiece connector into the now exposed connector

Radio Basics

Start on Channel 1 and switch to a different channel for detailed one to one chats.

Use first names as call signs with the exception of the control station which will be known as 'Control'.

To operate the radio, press the large PTT (Push To Talk) button on side of the radio to start speaking.

Listen briefly before sending in order to avoid cutting into ongoing discussion.

Pause after pressing the PTT button before speaking.

To ensure the radios are working correctly, perform a radio check regularly. To do this press the PTT button and request a response from Control.

Call Control: Say "Hello Control".

Identify yourself: Say your call sign or name.

State your request: Say "Can you hear me?"

Wait for a response: Control will respond that they can hear you.

Remember that other people will be listening to you speak and be cautious in transmitting sensitive information. Use the earpiece.

The basic format for a SITREP is:

What	What is happening?
Where	Where is it happening?
Who	Who is involved (numbers)?
What	What are you doing about it?
Other	Other key information?
Assistance	What assistance/support do you require?
